**PRODUCT CATALOGUE  
2022 | 2023**

The Rossi revolution of firearm design and manufacture started with the founding of the company in 1889 by Amadeo Rossi. Over the last 133 years, that tradition has grown along with the company and the Rossi Family. The Rossi name represents a piece of firearm history and a tradition of excellence.

Over the years, Rossi firearms have led the way in design and engineering. At the same time, it has always been important to produce an affordable product without sacrificing any quality or accuracy. The brand's extensive range of products includes a variety of models: Lever Action, Semi-Auto, Bolt Action, Break Action and Pump Action – in Shotgun, Rimfire and Centerfire.

Since 2017, Rossi firearms are being designed, produced, and exported by CBC, in Brazil.
